Forest Nursery Company

BOYD BROTHERS, Proprietors

**Forest and Shade Trees, Ornamental
Shrubs, Plants and Roses**

McMinnville, Tennessee

Foreword

In presenting this catalog, we take considerable pride. Proud that we are still growing the varieties of trees and shrubs that give to our customers a real satisfaction, and proud, too, that after more than thirty-five years of service we are still favored with the business of so many loyal friends and a continually increasing list of new customers.

With a sense of sincere appreciation we enter into a new year of business equipped better than ever for handling our steadily growing trade.

No matter whether we have had the pleasure of serving you in times past or whether you are placing your first order it will be our aim and desire to ship you stock and render you service that will merit a continuance of your patronage and the confidence you repose.

We give our best efforts to grow the finest trees and shrubs; we are not landscape architects, but we are always glad to give such assistance as we can to our customers in making the proper selection of what to plant.

Location

McMinnville is located on Sparta branch of N. C. & St. L. Ry., 30 miles from Tullahoma, which is on main line, half way between Nashville and Chattanooga. Our nurseries are $2\frac{1}{2}$ miles southeast of McMinnville. We are glad to have those interested visit our nurseries. Visitors are always welcome.

ORDERS—Write plainly and give **explicit directions** as to address and mode of shipment; otherwise we will forward **according to our best judgment**. All goods travel at purchaser's risk. **We assume no responsibility for the goods after delivery to the forwarding companies.**

We use every care to secure prompt delivery, but we are not liable for delays or damage in transit. Our responsibility in this respect ends upon delivery in good order to transportation company, but we will gladly render all the aid we can in case claim becomes necessary.

CLAIMS, to receive consideration, must be made **within ten (10) days of receipt of goods.**

GUARANTEE—We are very careful to keep each variety true to name as labeled, and are ready at any time to replace, on proper proof, any that may prove otherwise, free of charge, or refund the amount paid, but it is mutually agreed between the purchaser and ourselves that we shall at no time be liable for an amount larger than the original purchase price.

TERMS—Cash with order, unless otherwise arranged. Six per cent interest charged on overdue bills. Five plants at 10 rates; 50 at 100 rates.

All quotations in this list are net for the goods packed—no extra charges for packing and delivering to carriers here, unless otherwise agreed on. Customer pays carriage charges. If delayed, or lost on the road, notify us, and we will do all possible to get it through, or collect claim, but are not responsible for carriers neglect. We advise Express Shipments, as cost is little more than Freight on small lots, and stock gets through quicker and safer. Light packages can go Parcel Post. We add postage to bill.

Everything is offered subject to being unsold on receipt of order and subject to shortage or failure of crops or other causes beyond control. By placing orders buyers are considered to agree with these terms.

Certificate of inspection will be sent with each shipment.

Members of The American, Southern, Southwestern, Western and Tennessee Associations of Nurserymen

Ornamental and Shade Trees

The following is our list of deciduous trees (those which drop their leaves in the fall) that we are offering for delivery this Fall and Spring. Nearly all deciduous trees are hardy and will grow well in most any soil.

The planting of well selected trees is a duty each land owner owes to himself and posterity, and a duty which should not be delayed, the sooner planted the longer both yourself and the public may enjoy them.

Deciduous Trees

ACER DASYCARPUM. (Silver Leaf Maple.) It is the color of the leaves that gives the name to this popular maple. The underside of the foliage glistens like silver, while the top is light green. The method of carrying the leaves on the branches seems to make the tree alive with silver and green flashes. The Silver Maple is a rapid grower and a good street and ornamental tree.

	Each	Per 10	Per 100
2 to 3 feet.....	\$0.25	\$2.00	\$15.00
3 to 4 feet.....	.35	3.00	25.00
4 to 5 feet.....	.50	4.00	
5 to 6 feet.....	.75	5.00	
6 to 8 feet.....	1.00	7.50	

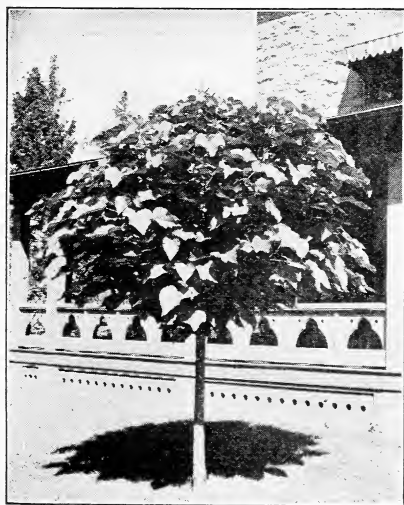

ACER RUBRUM. (Red, or Scarlet Maple.) A native species with fine rounded head; beautiful red blossoms and fruits in spring; gorgeous autumnal foliage. Thrives in low or damp places.

	Each	Per 10	Per 100
2 to 3 feet.....	\$0.25	\$2.00	\$15.00
3 to 4 feet.....	.35	3.00	20.00
4 to 6 feet.....	.50	4.00	30.00
6 to 8 feet.....	.75	5.00	

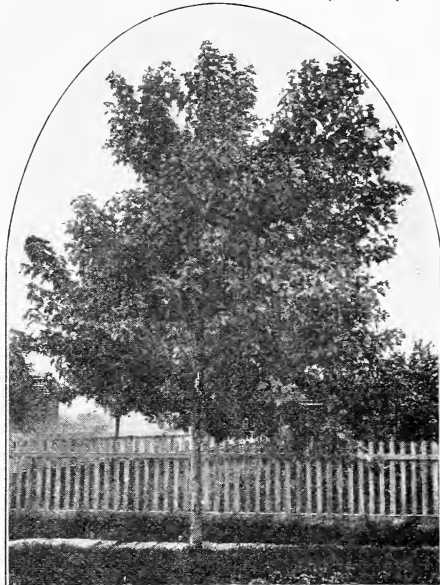

ACER SACCHARUM. (Sugar Maple.) A handsome shade tree for street and lawn. The leaves are green in mid-summer but later turn to shades of scarlet and orange making a beautiful specimen tree from spring until fall. The growth is thick and the tree develops into a large, stately specimen.

	Each	Per 10	Per 100
2 to 3 feet.....	\$0.25	\$2.00	\$15.00
3 to 4 feet.....	.35	3.00	20.00
4 to 6 feet.....	.50	4.00	30.00
6 to 8 feet.....	.75	5.00	

ANDROMEDA ARBOREA. *Oxydendrum Arborea.* (Sorrell tree.) A very ornamental little tree with handsome foliage that turns a brilliant crimson in Autumn. Panicles of small white flowers resembling those of Lily-of-the-Valley are borne in July.

Catalpa Bungei

Silver Leaf Maple

	Each	Per 10	Per 100

2 to 3 feet.....	.40	3.50	25.00
3 to 4 feet.....	.60	5.00	

BEECH, American *Fagus Ferregrania.* (American Beech.) Our noble native forest tree with silvery bark, fine spreading growth and symmetrical, rounded head. Especially attractive in Spring with the tender, delicate green of its leaves and pendent flowers. Pure yellow in fall.

	Each	Per 10	Per 100
2 to 3 feet.....	\$0.10	\$0.80	\$ 6.00
3 to 4 feet.....	.15	1.35	10.00
4 to 6 feet.....	.25	2.00	17.50

BETULA NIGRA. (Red, or River Birch.) The familiar Birch with torn and ragged bark that can often be seen along the banks of streams. It is a graceful, moisture-loving tree that should be in all lowland plantings.

	Each	Per 10	Per 100
18 to 24 inches.....	\$0.20	\$1.50	\$10.00
2 to 3 feet.....	.25	2.00	15.00
3 to 4 feet.....	.30	2.50	20.00

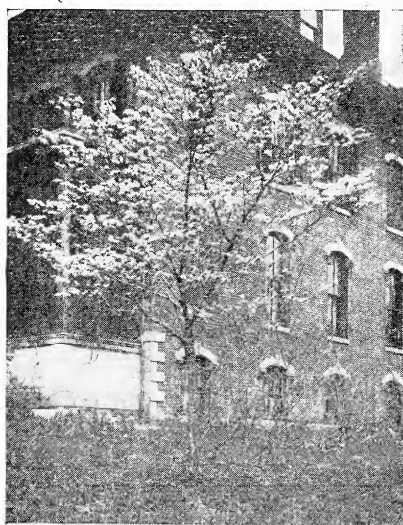

CATALPA BUNGEI. (Chinese Catalpa.) A dwarf form only 3 to 4 feet high, twice as broad. It is very useful in formal park work when grafted on stems 5 to 8 feet high forming a pretty dome shaped head of large, soft, heavy leaves. Elegant for lawns, parks and cemeteries.

	Each	Per 10	Per 100
1-year heads.....	\$1.25	\$10.00	
2-year heads.....	1.50	12.50	
3-year heads.....	2.50	20.00	

CATALPA SPECIOSA. (Western Catalpa.) A fine looking tree giving a tropical effect. Large oval leaves and fragrant purple-and-white flowers, grows naturally in our climate. A handsome lawn tree.

	Each	Per 10	Per 100
2 to 3 feet.....	\$0.25	\$2.00	\$15.00

6 to 8 feet.....	.75	5.00	

ORNAMENTAL AND SHADE TREES—Continued

White Flowering Dogwood (*Cornus Florida*).

CARPINUS HORNBEAN. (*Carpinus Americana*.) A handsome, ornamental tree that will stand any amount of trimming and pruning. Used in hedges and specimen plantings.

	Each	Per 10	Per 100
2 to 3 feet.....	\$0.20	\$1.50	\$10.00
3 to 4 feet.....	.25	2.00	15.00
4 to 6 feet.....	.40	3.00	25.00

CHESTNUTS. *American Sweet.* The nuts of this tree form quite an item in our commerce. Although smaller than some other sorts they are sweeter and more delicately flavored. This chestnut is also a grand timber and ornamental shade tree, spreading, in mid-summer, billowy masses of creamy, fragrant catkins above its large, deep green leaves, making a most beautiful specimen on the lawn.

	Each	Per 10	Per 100
12 to 18 inches.....	\$0.20	\$1.50	\$10.00
18 to 24 inches.....	.25	2.00	15.00
2 to 3 feet.....	.30	2.50	20.00

CERCIS CANADENSIS. (Red bud, or Judas tree.) A small growing tree of irregular form with heart shaped leaves. It is covered with pink blossoms early in spring before leaves appear.

	Each	Per 10	Per 100
2 to 3 feet.....	\$0.25	\$2.00	\$15.00
3 to 4 feet.....	.35	3.00	20.00
4 to 5 feet.....	.50	4.00	

CORNUS FLORIDA. (White Flowering Dogwood.) Flowers white, produced in spring before leaves appear; very abundant, showy and durable. Foliage, grayish green, glossy and handsome; in Autumn turns to deep red making the tree one of the most beautiful at that season.

	Each	Per 10	Per 100
2 to 3 feet.....	\$0.25	\$2.00	\$17.50
3 to 4 feet.....	.30	2.50	20.00
4 to 5 feet, bushy.....	.50	4.00	30.00
5 to 6 feet, bushy.....	.75	6.00	

CLADRASTIS TINCTORIA. (Yellow Wood.) A pretty, low tree, with small, egg-shaped leaf-

lets. Flowers are white and in graceful drooping clusters.

	Each	Per 10	Per 100
2 to 3 feet.....	\$0.25	\$2.00	\$15.00
3 to 4 feet.....	.35	3.00	25.00
4 to 5 feet.....	.50	4.00	

CELTIS HACKBERRY. (American Nettle Tree.) A handsome tree with stout spreading branches, forming a round-topped crown, leaves almost like the apple but more pointed. Fruit resembles a small blackberry. Very desirable for street planting.

	Each	Per 10	Per 100
2 to 3 feet.....	\$0.25	\$2.00	\$15.00
3 to 4 feet.....	.35	3.00	20.00
4 to 6 feet.....	.50	4.00	30.00

DIOSPYROS VIRGINIANA. (American Persimmon.) A native of the southern states but will thrive and ripen its fruit as far north as the Great Lakes. The tree reaches a height of 20 to 30 feet. The fruit is not large, one-half to one inch in diameter and must be fully ripe to become edible. A valuable ornamental tree. Will thrive on the poorest soil.

	Each	Per 10	Per 100
18 to 24 inches.....	\$0.15	\$1.00	\$ 7.00
2 to 3 feet.....	.20	1.50	10.00
3 to 4 feet.....	.25	2.00	15.00
4 to 5 feet.....	.50	4.00	25.00

ELM, AMERICAN WHITE. A noble native tree of large size, wide spreading head and graceful drooping branches. One of the grandest park and street trees.

	Each	Per 10	Per 100
2 to 3 feet.....	\$0.20	\$1.50	\$10.00
3 to 4 feet.....	.25	2.00	15.00
4 to 6 feet.....	.40	3.00	25.00

ELM RACEMOSA. (Corked Bark Elm.) It is a native elm. The bark is very unusual, being in pronounced ridges all along the trunk and branches, otherwise it is very much like the other elms.

	Each	Per 10	Per 100
2 to 3 feet.....	\$0.20	\$1.50	\$10.00
3 to 4 feet.....	.25	2.00	15.00
4 to 6 feet.....	.40	3.00	25.00

Catalpa Speciosa

GINKGO BILOBA. (Salisburia Adiantifolia.) (Maiden Hair Tree). A handsome street and lawn tree, defying smoke, dirt and insects. Erect, pyramidal grower, with small heart-shaped leaves.

	Each	Per 10	Per 100
18 to 24 inches.....	\$0.30	\$2.00	\$15.00
2 to 3 feet.....	.40	3.00	20.00
3 to 4 feet.....	.60	5.00	

HAMAMELIS VIRGINICA. (Witch-Hazel). A strong grower in any soil, but succeeds best in moist places. Remarkable for small, odd, yellow flowers that open just as its leaves are brightening with Autumn tints. Hardy in Canada. Valuable for massing and wild effects.

	Each	Per 10	Per 100
18 to 4 inches, branched.....	\$0.30	\$2.50	\$22.50
2 to 3 feet, branched.....	.40	3.50	
3 to 4 feet, branched.....	.60	5.60	
4 to 6 feet, branched.....	.90	7.50	

LINDEN, TILIA. American or Basswood. (Tilia Americana). A large tree forming a broad, round-topped crown. Leaves broadly oval, dark green on top and light beneath, turning yellow in Autumn. Creamy flowers in summer, and very attractive to the honey bee. A grand tree everywhere.

	Each	Per 10	Per 100
18 to 24 inches.....	\$0.15	\$1.00	\$ 7.00
2 to 3 feet.....	.20	1.50	10.00
3 to 4 feet.....	.25	2.00	15.00
4 to 5 feet.....	.40	3.00	

LIQUIDAMBER STYRACIFLUA. (Sweet Gum). This is another of our native trees of rare beauty and great ornamental merit.

	Each	Per 10	Per 100
2 to 3 feet.....	\$0.40	\$3.50	\$30.00
3 to 4 feet.....	.50	4.00	35.00
4 to 5 feet.....	.75	6.00	
5 to 6 feet.....	.90	7.50	

LOCUST, BLACK. (Robinia Pseudacacia). This is a familiar tree of rapid growth, thriving well in almost any soil and location. Can furnish Black Locust in large quantities in small

sizes. If wanted for re-foresting work write us for special quotations.

	Each	Per 10	Per 100
18 to 24 inches.....	\$0.05	\$0.40	\$ 3.00
2 to 3 feet.....	.07	.60	5.00
3 to 4 feet.....	.10	.80	7.00
5 to 6 feet.....	.20	1.50	10.00
6 to 7 feet.....	.25	2.00	15.00

LOCUST, HONEY. (Gleditsia Triacanthus). A hardy native tree with strong thorns. Its neat, attractive habit suit it for lawn planting and its ability to withstand shearing enables it to be used for strong hedges.

	Each	Per 10	Per 100
12 to 18 inches.....	\$0.25	\$1.50	\$15.00
18 to 24 inches.....	.30	2.50	20.00
2 to 3 feet.....	.35	3.00	25.00
3 to 4 feet.....	.60	5.00	

MAGNOLIA ACUMINATA. (Cucumber Tree). The tallest of the species growing rapidly into a fine pyramidal tree 60 to 90 ft. high. In mid-summer large, creamy, white blossoms appear among its deep green leaves and large cucumber shaped fruits that turn bright crimson succeed them.

	Each	Per 10	Per 100
18 to 24 inches.....	\$0.30	\$2.00	\$15.00
2 to 3 feet.....	.40	3.00	20.00
3 to 4 feet.....	.60	5.00	
4 to 5 feet.....	.80	7.50	

MAGNOLIA TRIPETALA. Named from the whorled arrangement of its great, glossy leaves. The white flowers, also of great size, open in June and are followed by rose-colored fruit cones. Tree grows to 40 feet.

	Each	Per 10	Per 100
18 to 24 inches.....	\$0.30	\$2.00	\$15.00
2 to 3 feet.....	.40	3.00	20.00
3 to 4 feet.....	.60	5.00	
4 to 6 feet.....	.80	7.50	

MAGNOLIA GRANDIFLORA. (Southern Magnolia.) This is the grandest of all our native broad-leaved evergreen trees. It is a native of the middle section of the southern states and succeeds best in a rich soil. Nothing more conspicuous can be seen amongst evergreens when its large white flowers are fully expanded. Their period of blooming begins the middle of April and lasts until August.

	Each	Per 10	Per 100
12 to 18 inches.....	\$0.50	\$3.00	\$25.00
18 to 24 inches.....	.75	5.00	40.00
2 to 3 feet.....	1.00	10.00	
3 to 4 feet.....	1.25	12.00	

MELIA. Texas Umbrella Tree. A distinct form of the China tree with a dense, spreading, umbrella-like head. The branches start together much like the stays of an umbrella, and with the dense, bright green foliage, make a compact, umbrella-like head.

	Each	Per 10	Per 100
18 to 24 inches.....	\$0.15	\$1.00	\$ 7.00
2 to 3 feet.....	.20	1.50	10.00
3 to 4 feet.....	.25	2.00	15.00
4 to 5 feet.....	.40	3.00	

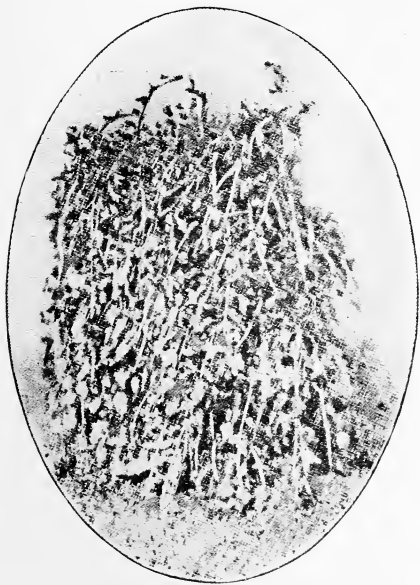

MORUS. (Mulberries.) Birds are attracted by the sweet fruits of these small, but quick-growing, ornamental trees. Do not plant close to a sidewalk, as the berries fall during the fruiting season.

RUSSIAN MULBERRY. (Morus Alba). A quite hardy, low growing tree that bears quantities of fruit which attracts the birds.

	Each	Per 10	Per 100
2 to 3 feet.....	\$0.20	\$1.50	\$10.00
3 to 4 feet.....	.25	2.00	15.00
4 to 6 feet.....	.40	3.00	25.00

TEA'S WEEPING MULBERRY. (Tatarica Pendula). Requires but two or three years to develop into a handsome, weeping tree that will ornament any lawn. The pendulous branches sweep the ground in shining lengths. One of the best weeping trees in cultivation.

	Each
1-year heads.....	\$2.00
2-year heads.....	2.50

Tea's Weeping Mulberry

POPULUS—THE POPLARS

Inexpensive, hardy, rapid-growing trees very much in use for quick or temporary effects. Easy to transplant, thriving under almost every condition.

POPLAR ALBA. (Silver Poplar). A form of the white poplar; a straight tree with silver white leaves. It will grow in most any soil where other trees fail.

	Each	Per 10	Per 100
2 to 3 feet.....	\$0.20	\$1.50	\$10.00
3 to 4 feet.....	.25	2.00	15.00

POPULUS CAROLINENSIS. (Carolina Poplar.) An excellent tree where rapid growth is desired. Its upright growth permits of comparatively close planting which makes this species of poplar useful for screens.

	Each	Per 10	Per 100
2 to 3 feet.....	\$0.20	\$1.50	\$10.00
3 to 4 feet.....	.25	2.00	15.00

POPLAR LOMBARDY. (New Chinese Lombardy Poplars): tall grower; branches erect and closely pressed to the trunk. Foliage dark green.

	Each	Per 10	Per 100
2 to 3 feet.....	\$0.20	\$1.50	\$10.00
3 to 4 feet.....	.25	2.00	15.00
4 to 6 feet.....	.50	4.00	30.00

POPLAR NIGRA. (Lombardy). A tall, spiral-like tree, often attaining a height of 80 to 100 feet. It is a rapid grower, distinctly ornamental and beautiful and is much used for screens and in formal plantings.

	Each	Per 10	Per 100
2 to 3 feet, branched.....	\$0.20	\$1.50	\$10.00
3 to 4 feet, branched.....	.25	2.00	15.00
4 to 6 feet, branched.....	.35	3.50	25.00

POPLAR TULIPEFERA. (Liriodendron). A large and stately rapid grown tree with a narrow pyramidal crown. Leaves, bright green and lustrous, turning yellow in Autumn. Flowers, cup shaped, resembling a tulip, greenish yellow blotches with orange. A handsome tree and one that is deserving of the highest esteem of the planters.

	Each	10	100
2 to 3 feet, transplanted.....	\$0.25	\$2.00	\$15.00
3 to 4 feet, transplanted.....	.30	2.50	20.00
4 to 6 feet, transplanted.....	.50	4.00	30.00

Silver Poplar (Poplar Alba)

NYSSA MULTIFLORA. (Black, or Sour Gum). A native tree, especially liked for the gorgeous scarlet coloring of its foliage and dark blue berries in early Autumn.

	Each	Per 10	Per 100
18 to 24 inches.....	\$0.20	\$1.50	\$10.00
2 to 3 feet.....	.25	2.00	15.00
3 to 4 feet.....	.35	3.00	20.00

OSAGE ORANGE. A hardy tree widely planted for hedges. Stands clipping remarkably well, and forms an almost impenetrable barrier when properly cared for. A valuable tree for posts, the wood being almost indestructible. For large quantities for hedges, get our special quotations.

	Each	Per 10	Per 100
18 to 24 inches.....	\$0.10	\$0.80	\$ 6.00
2 to 3 feet.....	.15	1.25	10.00
3 to 4 feet.....	.30	2.50	20.00

Lombardy Poplar (Poplar Nigra)

PLATANUS OCCIDENTALIS. (American Sycamore.) A gigantic tree attaining a height of 100 feet, the trunk sometimes becoming 8 feet in diameter. Bark often creamy white. Leaves, short, broad and star-pointed. A hardy tree and valuable in lawn and street planting.

	Each	Per 10	Per 100
18 to 24 inches.....	\$0.30	\$2.00	\$15.00
2 to 3 feet.....	.40	3.00	20.00
3 to 4 feet.....	.60	5.00	

SYCAMORE, EUROPEAN. (Oriental Plane). A lofty, wide-spreading tree; heart-shaped leaves; valuable for its handsome foliage and free growth and in every way desirable.

	Each	Per 10	Per 100
18 to 24 inches.....	\$0.30	\$2.50	\$20.00
2 to 3 feet.....	.40	3.50	25.00
3 to 4 feet.....	.50	4.00	30.00

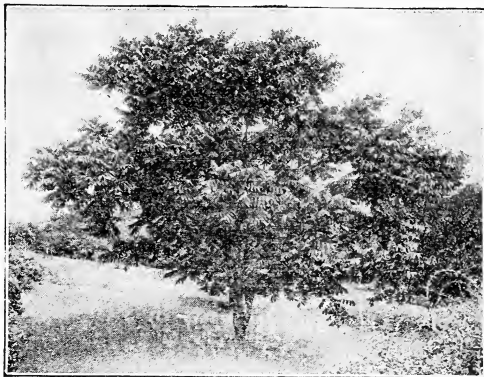

WALNUTS

WALNUTS AND BUTTERNUTS. (Juglans). All of the species are valuable for lawn or landscape and, in addition, for their toothsome nuts. The fruits of the Japanese Walnuts are considered superior to those of the native species and in localities where the English Walnut is not hardy, are commended to the attention of orchardists. These hardy and ornamental trees thrive in moist, fertile soils.

BLACK. A native tree of large size and beautiful foliage. The most valuable of trees for its timber, brings the highest price in market. Tree a rapid grower, producing a large, round nut of excellent quality.

	Each	Per 10	Per 100
12 to 18 inches.....	\$0.20	\$1.50	\$12.00
18 to 24 inches.....	.25	2.00	15.00
2 to 3 feet.....	.30	2.50	18.00
3 to 4 feet.....	.40	3.00	20.00

JAPAN SIEBOLDI. Perfectly hardy, rapid grower, handsome form, immense leaves; bears young and abundantly. Nuts produced in

Japan Sieboldi (Japanese Walnut)

clusters; resemble butternuts in shape and quality; smaller; smooth and thinner shell.

	Each	Per 10	Per 100
12 to 18 inches.....	\$0.25	\$2.00	\$15.00
18 to 24 inches.....	.40	3.00	25.00
2 to 3 feet.....	.50	4.00	

BUTTERNUT, or WHITE WALNUT. Native tree producing a large nut. Has a sweet, oily, nutritious kernel.

	Each	Per 10	Per 100
12 to 18 inches.....	\$0.20	\$1.50	\$12.00
18 to 24 inches.....	.25	2.00	15.00
2 to 3 feet.....	.30	2.50	18.00
3 to 4 feet.....	.40	3.00	20.00
4 to 5 feet.....	.50	4.00	25.00

WILLOWS

WILLOW TREES. (Salix). Rapid growing, hardy trees thriving in any moist soil. The Willows are valuable and interesting subjects, both on account of their graceful aspect, and showy catkins and bright bark. Wonderful effects may be obtained by grouping or massing their back-grounds with evergreens.

	Each	Per 10	Per 100
2 to 3 feet.....	\$0.25	\$2.00	\$15.00
3 to 4 feet.....	.35	3.00	20.00
4 to 6 feet.....	.50	4.00	25.00

CAPREA. (Goat or Pussy Willow). A small tree with upright or ascending branches. Leaves green, relatively large and broad. Catkins very numerous, appearing in early spring before the leaves put out. Handsome in flower and greatly esteemed by reason of its earliness.

	Each	Per 10	Per 100
2 to 3 feet.....	\$0.25	\$2.00	\$15.00
3 to 4 feet.....	.35	3.00	20.00

WILLOW. (Ring-Leaved Willow). A form of willow with curiously curled, or twisted leaves. An interesting tree, attracting attention where ever seen.

	Each	Per 10	Per 100
2 to 3 feet.....	\$0.25	\$2.00	\$15.00
3 to 4 feet.....	.35	3.00	20.00
4 to 6 feet.....	.50	4.00	25.00

Weeping Willows

We are always glad to give assistance to our customers in making selections of proper varieties. We pack carefully for shipping and keep them true to name as labeled.

Evergreens

Hardy Evergreens are particularly valuable for use in all classes of ornamental planting in as much as they preserve their graceful foliage and coloring throughout the summer and winter.

ABELIA GRANDIFLORA. A hardy, free blooming shrub with shiny, purplish, evergreen leaves; bears profusions of clusters of tubular shaped flowers about one inch long, white inside, delicate pink outside. Fragrant blooms lasts all summer. Very desirable.

	Each	Per 10	Per 100
18 to 24 inches.....	\$0.75	\$5.00	\$40.00
2 to 3 feet.....	1.00	7.00	
3 to 4 feet.....	1.50	10.00	

ABIES BALSAMEA. (Balsam Fir). A slender tree of pyramidal and rapid growth. Dark green foliage; very hardy.

	Each	Per 10	Per 100
12 to 18 inches.....	\$1.00	\$8.00	
18 to 24 inches.....	1.50	12.00	

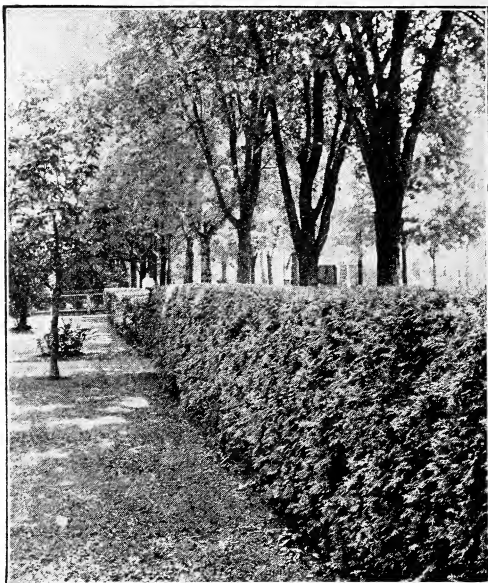

ARBOR VITAE. (American.) Fine hedge evergreen; hardy and easily transplanted. Grows rapidly and stands shearing well.

Hemlock

NORWAY SPRUCE. This familiar Spruce is more generally used than any of the others. It is a rapid grower, does well in most soils, and withstands the bleak, cold winds of winter. If left untrimmed they spread out magnificently and make desirable specimens. They make splendid windbreaks and shelter belts. If planted as hedges and sheared, they become impenetrable, and as good for this purpose as any evergreen.

	Each	Per 10	Per 100
8 to 12 inches.....	\$0.35	\$ 2.50	
12 to 18 inches.....	.50	4.30	
18 to 24 inches.....	.80	7.50

Hardy, Deciduous, Flowering Shrubs

As you drive along the road you may be attracted by a broad, well-kept lawn, but the memory of the place will soon be forgotten, unless the lawn and house are framed with well-kept flowering shrubs, which reveals to the student and lover of nature that she has been most lavish with certain species of shrubs in various localities. There are locations which suggest the planting of individual shrubs, which are allowed space for symmetrical development, and in such locations their grace and beauty cannot be surpassed. In groups they can be made to emphasize some feature of the lawn, to screen some unsightly object, or to destroy the strong, stiff lines of foundation walls. They will acceptably cover slopes difficult and expensive to decorate, otherwise. At the edges of the lawn, along walks and drives, or in distant corners, a collection of shrubs may be gathered that will give a succession of bloom from the opening of Spring until frost comes to destroy the flowers. The Spirea, Hydrangea, Barberry and others of like character are effective for grouping, or mass planting, against fences or walls, about the house foundations, or at the borders of the lawn. Tall and quick-growing shrubs, like Dogwood, the Privets, and Philadelphus, may be employed to screen buildings, or hide an unattractive view. Or they may be planted to form a hedge, doing away with the common wood, or iron fence. Shrubs provide material of a permanent character for the adornment of property at less cost and more effectively than anything else.

Althea or Rose of Sharon

ALBELIA GRANDIFLORA. A hardy, free blooming shrub with shiny, purplish, evergreen leaves; bears profusion of clusters of tubular shaped flowers about one inch long, white inside, delicate pink outside. Fragrant blooms lasts all summer. Very desirable.

	Each	Per 10	Per 100
18 to 24 inches.....	\$0.75	\$ 5.00	\$40.00
2 to 3 feet.....	1.00	7.00	
3 to 4 feet.....	1.50	10.00	

AMORPHA FRUTICOSA. (Common False Indigo). A tall native shrub of very easy cultivation, blooming freely in June. The violet spikes are crowded.

	Each	Per 10	Per 100
2 to 3 feet.....	\$0.25	\$2.00	\$17.50
3 to 4 feet.....	.30	2.50	20.00
4 to 6 feet.....	.50	4.00	

ALMOND. Spring flowering shrubs, gaily in full bloom before the leaves appear. Their growth is dwarf, bushy and compact; slender branched, when in bloom completely hidden by beautiful double flowers of rose, or white, snuggling tight to the twigs. Double pink.

	Each	Per 10	Per 100
12 to 18 in. transplant- ed, bushy	\$0.40	\$3.50	\$30.00

2 to 3 feet.....	1.00	8.00	

ALTHEA, or ROSE OF SHARON. These are grand flowering shrubs. There is a wide range of color, and not a day from the middle of July until September—a time when so few other shrubs are in bloom, that Altheas are not aglow with flowers. They have no insect enemies, grow well anywhere, are splendidly suited for shrubbery borders, for colony plantings and hedges. The planter who uses them freely makes no mistake. The following colors:

- Anemoneiflora.** Large double red.
- Amplissima.** Double rosy red, early bloomer.
- Ardens.** Double purplish, an old favorite.
- Boulde de Feu.** Double Red.
- Bicolor.** Double white, with red marks.
- Due de Brabant.** Double dark red, early bloomer.
- Joan of Arc.** Pure white, very double.
- Lady Stanley.** White, shaded rose, semi-double.
- Puleherimus.** Variegated flower.
- Peoniflora.** White with cherry red center. Very floriferous.
- Totus Alba Simplex.** Large single, pure white.

Almond

SHRUBS—Continued

ARALIA PENTAPHYLLA. Long, slender, gracefully arching branches and bright green, compound foliage. Makes a small tree in time, especially attractive on rocky slopes. Greenish white flowers in long umbels.

	Each	Per 10	Per 100
18 to 24 inches.....	\$0.40	\$3.00	\$25.00
3 to 4 feet.....	.60	5.00	

ARONIA. (Chokeberry.) Attractive, perfectly hardy shrubs preferring moist location, but equally good in dry soil. Leaves are smooth, pale green, coloring vividly to red in fall. Flowers are tinted white in numerous small corymbs, succeeded by conspicuous, persistent berry-like fruits.

ARONIA NIGRA. (Black Chokeberry.) Dwarf, seldom reaching 6 feet. Its flowers are slightly tinged with red, and its fruits ripen to a shiny jet black.

	Each	Per 10	Per 100
18 to 24 inches.....	\$0.25	\$2.00	\$18.00
2 to 3 feet.....	.35	3.00	25.00

BARBERRY THUNBERGII. (Japanese Barberry.) The Barberry Thunbergii can be planted anywhere. It has nothing to do with Black Rust. You need not be afraid to plant the Thunbergii. Invaluable little shrub that fits in with almost every planting. Grows about everywhere, handsome foliage of bright green, oval leaves that turn to most brilliant shades of orange and red in the fall. Slender, graceful branches protected by thorns, are lined with scarlet berries of great attractiveness from early autumn well into winter. Very valuable for low hedge.

	Each	Per 10	Per 100

18 to 24 inches.....	\$0.30	\$2.50	\$22.50
2 to 3 feet.....	.40	3.50	

COMPTONIA ASPLENIFOLIA. (Sweet Fern). A low shrub with fern-like fragrant foliage, well adapted for massing on rocky banks and sandy stretches. Very hardy and ornamental.

	Each	Per 10	Per 100
12 to 18 inches.....	\$0.20	\$1.50	\$12.00
18 to 24 inches.....	.25	2.00	15.00

GRAPE MYRTLE. (Lagerstroemia Indica). A very popular and free flowering shrub, or small tree, which produces blooms in great abundance throughout the summer. The flowers are beautifully fringed and are borne in large clumps. A massing of these, or a single specimen, makes a most striking effect. Commences to bloom in May. We offer two colors: Crimson and pink.

	Each	Per 10	Per 100
18 to 24 inches.....	\$0.50	\$4.00	\$35.00
2 to 3 feet.....	.80	7.00	
3 to 4 feet.....	1.25	10.00	

CYDONIA, or PYRUS. Japonica (Japan Quince, or Burning Bush). 6 to 8 feet. Scarlet. April-May. No doubt one of the most attractive spring blooming shrubs, blossoms always large produced in great masses just as the leaves are coming out. Foliage is a dark glossy green. The plant is free of disease and if it can be kept free of San Jose scale will pay for the space it occupies in any planting.

	Each	Per 10	Per 100
18 to 24 inches.....	\$0.50	\$4.00	\$35.00
2 to 3 feet.....	.80	7.00	
3 to 4 feet.....	1.25	10.00	

CLETHRA ALNIFOLIA. Sweet Pepper Bush. A pretty little shrub that blooms freely for several weeks in summer; very fragrant white flowers.

	Each	Per 10	Per 100
18 to 24 inches.....	\$0.50	\$4.00	
2 to 3 feet.....	.75		

BUDELIA. ("Butterfly Bush") or Summer Lilac. One of the most admired and sought after shrubs in the trade. Of quick bushy growth; when the lovely bloom-spikes appear in July, the shrub which had probably died down nearly to the ground during winter, is now a perfect specimen of about five feet; radiating a delightful perfume and glowing with the tints and flower shape of Spring Lilacs.

	Each	Per 10	Per 100
18 to 24 inches.....	\$0.35	\$3.00	\$25.00
2 to 3 feet.....	.45	4.00	35.00

Amoor Privet Hedge

LIGUSTRUM—The Privets. These grand shrubs are extensively used for hedges, fences and screens and also given space in the shrub plantation for the beauty of their flowers and berries. They are hardy and vigorous, thriving in almost any fertile soil and stand clipping admirably.

Privet produces wood faster than any other shrub or tree. For a hedge that is thick right down to the ground, you must set the plants close together, anywhere from 6 to 18 inches apart. It is sometimes best to set a double row, the plants "staggered" a foot apart in each line. Some people use even a triple row. The lines should be about 8 inches apart. This is the way to make the finest hedges, especially when you want them a couple of feet wide and over 3 feet high. A single row of plants will make a beautiful hedge, but it will not be so thick at the bottom, and will require careful trimming to make it as nice. When possible plow or dig a trench 2 feet wide and 1 foot deep. Don't throw the dirt out; just mix it thoroughly. A horse and harrow or cultivator are the best tools. When you have a fine bed of soil plow a trench in the middle and set the plants in dry soil.

Cut back to within 3 inches of the ground the first season; then each April cut back again to within 6 inches of the previous year's height. This harsh treatment will force a thick leafy growth of twigs and branches right from the ground up. By setting the plants 6 inches deeper than they were in the nursery, each one will have half a dozen or more stems coming out of the ground, and will thus help greatly in keeping the hedge thick at the bottom. The roots should be "puddled" as soon as you unpack them, and if you do not plant at once they should be coated with mud again just before you plant.

Amoor River North Privet. Deciduous northern form of Amoor River Privet. This is a very hardy form, of upright growth, similar to the California Privet, but much harder than that variety. Very desirable for hedge or planting in groups. This privet must not be confused with the evergreens or southern form of Ligustrum Amurense.

SYMPHORICARPOS VULGARIS, Red Snow-berry. Red fruited or Indian currant. A shrub of very pretty habit. Foliage flowers and fruit small; fruit purple and hangs all winter.

	Each	Per 10	Per 100
18 to 24 inches	\$0.25	\$2.00	\$15.00
2 to 3 feet30	2.50	20.00
3 to 4 feet35	3.00	25.00

VIBURNUM, including Snowballs. Viburnums are hardy, grow quickly, and are free from the attacks of injurious insects. They are invaluable in shrubbery borders, desirable as specimens, and useful in all plantings. Most varieties will grow satisfactorily in partially shaded places, although they will, of course, flower better in sunny locations. Beautiful Autumn foliage is displayed by some varieties, while others are valued for their ornamental berries.

Viburnum Acerifolium, (Maple Leaved). Slender branches, maple like leaves, creamy white flowers in late spring, and black berries. Grows 3 to 5 feet high.

	Each	Per 10	Per 100
18 to 24 inches	\$0.25	\$2.00	
2 to 3 feet40	3.50	
3 to 4 feet60	5.00	

Viburnum Dentatum, (Arrow-Wood). 8 to 12 feet. Bright green, heart shaped leaves turning to purple and red; May and June flowers of creamy white.

Viburnum (Japan Snowball)

SHRUBS—Continued

Weigelia Rosea

WEIGELIA. This splendid family of shrubs is one of the most useful, and is rarely omitted from any mixed group which will accommodate the height. Most varieties grow quickly to an ultimate height of about 6 to 8 feet, usually with long arching branches. During May, June and July they bear a great profusion of bell-shaped flowers which closely hug the stems.

Weigelia, Candida. Flowers pure white, produced in June and continue to bloom nearly all summer.

	Each	Per 10	Per 100
18 to 24 inches	\$0.35	\$3.00	\$25.00
2 to 3 feet45	4.00	35.00

Weigelia, W. Eva Rathke. The most distinct and one of the most attractive varieties; flowers deep carmine red.

18 to 24 inches.....	\$0.50	\$1.00
----------------------	--------	--------

Weigelia Desboisi. One of the darkest and best of the rose-colored sorts.

Wisteria

Hardy Garden Roses

The beauty of the Rose is so widely appreciated that the popularity it now enjoys, and the demand for Hardy Garden Roses are annually increasing. In old fashioned gardens, in borders, along garden walks or on arbors the sweet perfume of blooming roses is a source of constant delight to all who grow them.

HAVE YOU A ROSE GARDEN? Would you like to have one? It requires little space, little preparation, little expense, and there will be no similar space or expenditure on your grounds which will repay so well with color, fragrance and beauty. If you WANT A ROSE GARDEN, select a few dozen and send us the list.

American Beauty Rose

GENERAL JACQUEMINOT — Bright, shining crimson, rich and velvety; exceedingly brilliant and handsome; makes magnificent buds and flowers, highly esteemed.

GENERAL WASHINGTON—An old favorite: crimson red; large full flat form; a profuse bloomer.

GRUSS AN TEPLITZ—Bright scarlet, shading to deep velvet crimson; very fragrant; free grower and most profuse and constant bloomer. Strong spreading grower.

HELEN GOULD—Beautiful rosy crimson roses of splendid form and texture. Long, pointed buds lasting well after cut. Beautiful foliage. Vigorous spreading growth.

KAISERIN AUGUSTA VICTORIA—Pure white. Freest bloomer and best all around rose. A general favorite. Small, upright.

KILLARNEY (Pink)—The popular Irish rose. Semi-double, with immense petals of good substance. Beautiful in the bud. Glowing pink. Vigorous, small, upright growth.

KILLARNEY (White)—Same good qualities of growth and habits as its parent, the Killarney, only petals are pure white.

LADY HILLINGDON—Has a long, slender pointed bud of brilliant deep golden-yellow; is always an even deep, intense golden-yellow; forces well. Awarded gold medal, N. R. S.

LUXEBURG—The coming yellow tinted rose; long willowy stems with pointed buds, desirable for cut flowers and garden blooms.

MADAME PLANTIER—Pure white, above medium size; full, produced in great abundance early in the season. Foliage rather small. Seven leaflets. One of the best white roses for hedges and for massing in groups.

AMERICAN BEAUTY—Large, full, beautiful, red, upright, strong grower on heavy land.

BESSIE BROWN—Erect stems; full, deep blooms with enormous petals; white, flushes with pink, growing deeper toward center.

BLACK PRINCE—Velvety crimson with shadings of purplish black. Upright strong growth.

BRIDE—Most dainty, pure white, with exquisitely long pointed buds borne on stiff, upright stems. Vigorous on strong land.

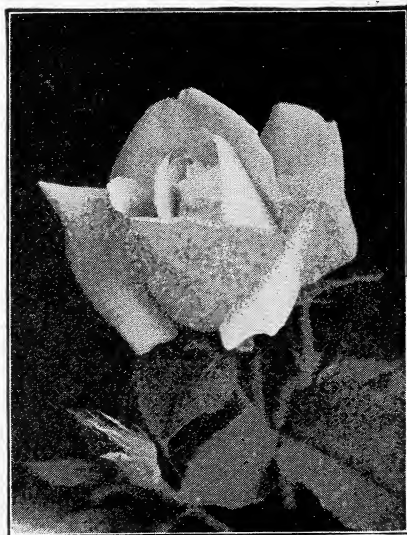

CAPTAIN CHRISTY—Large, full, double blossoms of most delicate pink, shading deeper in center. Very fragrant. Upright, stiff stems.

DUCHESS DE BRABANT—One of the best all around roses ever introduced. Healthy in constant bloom all the year. Beautiful cup-shaped blooms of delicate bright shell-pink. Large, spreading growth.

ETOILE DE FRANCE—Lovely shaded of clear, velvety crimson. Fine cupped formed buds borne on strong, stiff stems. Deliciously fragrant. Vigorous grower and profuse bloomer. One of the very best. Medium spreading growth.

EUGENE FURST—Beautiful red rose, vigorous grower, highly desirable.

FRAU KARL DRUSCHKI—One of the purest white roses known, some times known as Snow Queen. Very large blooms with immense petals of splendid substance. Splendid foliage and blooms on good, strong, stiff stems. Upright, strong.

Frau Karl Druschki

Maman Cochet (White)

OLD GARDEN (Tall Red)—One of the choicest brilliant red flowers; fragrant and very satisfactory.

MAD. CAROLINE TESTOUT. Delicate, silvery-pink roses of good substance. Splendid buds borne on good stiff stems. Good also when open, Medium upright growth.

MADAME EUGENE MARLITT—Crimson beauty, everblooming. Exquisite fragrance. Thick foliage, free from insects.

MAMAN COCHET (Pink)—Rosy pink, shading to silvery rose. A splendid rose of sturdy habits. Fine buds that last well cut, of large size and opening into full, double bloom of marked fragrance. Medium spreading grower.

MAMAN COCHET (Yellow)—Same characteristics except in color.

MAMAN COCHET (White)—Of same sturdy habits, size of bloom and delicate fragrance as the pink Cochet and of such a pearly white and such exquisite shading of most delicate pink that is easily ranked as one of the few best roses.

MARECHAL NIEL (Yellow)—The grand old southern favorite with fragrance equalled by none. Full, double, golden yellow blooms produced abundantly all seasons of the year.

Madam Plantier

duced abundantly all seasons of the year. Positively every home should have one or more of these grand climbers shedding their perfume at their door. More calls for these than for all other climbers combined.

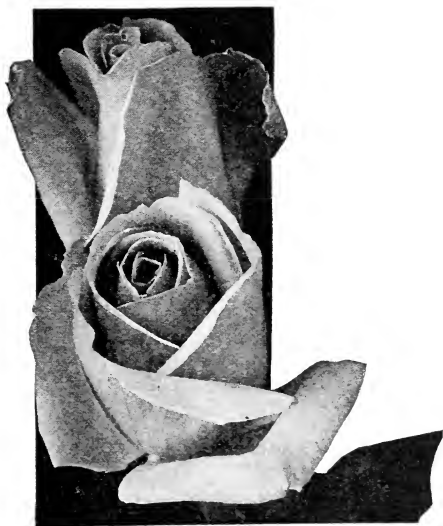

MRS. DUDLEY CROSS—Beautiful creamy white with delicate edging of carmine at edge of petals and base of petals rosy yellow. Full double blooms. Finely formed buds. Strong vigorous grower. Good bloomer. Spreading habit. Thornless.

MRS. B. R. CANT—Peculiarly attractive coloring of deep rose on outer petals, the inner reflecting soft, silvery rose, frequently suffused with buff at base of petals. Delicately fragrant. Well formed blooms produced in great profusion on strong, stiff stems, with heavy foliage. Vigorous, spreading habit.

PAUL NEYRON—Largest rose known. Even surpassing hothouse grown American Beauties. Deep, rosy pink, full double blooms with spicy fragrance, borne on strong upright stems. Vigorous grower and constant bloomer.

PINK LA FRANCE—Exceedingly sweet and handsome; flowers and buds large size, color lovely shade of silvery pink, tinged with crimson; fragrance delicious; flowers very full and beautiful.

RADIANCE—Brilliant rosy-carmine shaded with opaline-pink tints in the open flower, which is large, full, of fine form, with cupped petals. Fragrant. A constant all summer bloomer, producing strong, upright canes, and flowers are excellent keepers.

Silver Moon

SILVER MOON—Blooms very large, four or more inches in diameter, pure white in color and of good substance, beautifully cupped, forming a clematis-like flower. The large bunch of yellow stamens in the center makes it very attractive.

WHITE LA FRANCE—A pure white member of the La France family, having just a tinge of rose-blush tint, which grows stronger in the depths of the petals.

Hardy Climbing Roses

Hardy Climbing Roses can be used to such great advantage in so many ways that they are always a popular variety. They may be trained over porches, trellises, arbors or fences, or can be grown as individual plants, and they soon form beautiful bushes more ornamental than many shrubs. They may be trimmed to any shape or height desired.

We have only a small list of Roses, but what we offer are field grown, nice vigorous, healthy plants. Every garden should have a space for climbing roses. Make a selection and try a few of them.

Crimson Rambler Roses

AMERICAN PILLAR—A beautiful Climbing Rose, with great clusters of lovely pink flowers, with white eyes and yellow stamens, a most brilliant combination. Altogether this is one of the best of the single-flowered climbers.

CLIMBING AMERICAN BEAUTY—This is a wonderful new rose, resembling its namesake in character and size of bloom. In color it is a deep pink not so dark as the bush form. The plant is a moderate grower and the foliage is usually free of mildew.

BALTIMORE BELLE—Pale blush, nearly white; very double. Flowers in large clusters, the whole plant appearing a perfect mass of bloom.

RAMBLER BLUE—This is a new variety producing flowers of a pale violet blue. Distinctly hardy and a novelty.

RAMBLER WHITE—The flowers are the size of a silver quarter, perfectly filled, very fragrant. Color pure white, sometimes tinged with blush. Blooms in clusters.

RAMBLER YELLOW—A new climbing rose of same class and habit of the White Ramblers. Pink flowers.

SETIGERA—Our beautiful single Prairie Rose with large, salmon pink blossoms in great clusters, and large persistent red berries.

TAUSENDSCHOEN or THOUSAND BEUTIES—Bright clusters of blossoms varying in color from flushed white to rosy-carmine. A vigorous hardy climber with few thorns.

TENNESSEE BELL—Similar to the Baltimore Bell, but with deeper colored fragrant blossoms.

DOROTHY PERKINS—A splendid climbing rose. The flowers are large, very double, sweetly scented and of a beautiful shell pink.

CRIMSON RAMBLER—As a climbing or running rose, it has no equal. The foliage is rich dark green, flowers bright crimson which remain on a long time.

DOROTHY WHITE—Same habits of growth and freedom of flowering as the Dorothy Perkins, but with pure white blooms.

DR. VAN FLEET—Flowers full and double of a delicate flesh pink. Desirable for cutting.

DAYBREAK—A rapid grower. Flowers single pink clusters.

EXCELSA—Very double, crimson flowers in large trusses.

EVERGREEN GEM—Hardy; a free grower. Flowers creamy white.

FLOWER OF FAIRFIELD—The new, ever-blooming Crimson Rambler. A strong grower and continuous bloomer. Flowers bright crimson.

LADY GAY—The flowers are of a delicate, cherry pink color, which fades to a soft white.

WICHURAIANA (Memorial Rose)—Almost evergreen; flowers small, single, white; of trailing habit. Beautiful for planting on slopes and terraces, which it soon covers with a mass of bright green foliage.

Ornamental Grasses

There are few things more effective in landscape work than this class of plants. They are strong, rapid growers in almost any soil. During the close of Summer they come into bloom and are most showy and ornamental with their large flower plumes.

EULALIA JAPONICA. Green leaves, broader than those of the following varieties. In the late Summer and early Fall this plant is most attractive with its graceful plumes. Splendid for natural landscapes. Grows 5 to 6 feet high.

	Each	Per 10	Per 100
5 to 6 feet	\$0.25	\$2.00	\$15.00

GRACILLIMA, (Japan Rush). A beautiful, tall swaying grass, with narrow green leaves and silvery-white midrib. Brown tassels in last Fall and Winter.

	Each	Per 10	Per 100
.....	\$0.25	\$2.00	\$15.00

VARIEGATA. The long, narrow leaves are striped with white midribs.

	\$0.25	\$2.00	\$15.00

Hardy Ferns

These graceful and universally popular plants are of easy culture, and afford a wide range of possibilities, they require very little attention and are very beautiful. We have several varieties here in the mountain but only offer three varieties as follows:

OSMUNDA CINNAMOMEA. Cinnamon Fern. A stately large fern with very large creeping rootstocks. Grows naturally here in the mountain wild. Leaves deciduous, bright green, with numerous branches.

	Each	Per 10	Per 100
Clumps	\$0.20	\$1.75	\$15.00

OSMUNDA REGALIS, Royal Fern. A vigorous, tall fern with stout rootstocks bearing a cluster of large leaves.

	Each	Per 10	Per 100
Clumps	\$0.20	\$1.75	\$15.00

POLYSTICHUM ACROSTICHODES. Christmas Fern. A beautiful evergreen fern with stout rootstocks.

	Each	Per 10	Per 100
Clumps	\$0.20	\$1.75	\$15.00

Hardy Perennial and Bulb List

When you plant hardy perennial flowers you make a permanent investment in beauty. Like old friends they will greet you with each returning spring. There is not a time during the whole flower season when some hardy perennial is not in bloom. Year after year they reappear and flower abundantly, requiring scarcely any attention.

CHRYSANTHEMUMS*—We offer an assortment of hardy varieties including several well-liked types. They bloom freely in October and are not injured by early frosts. A showy, well known and beautiful hardy flower.

State color wanted—Each 25c; Per 10, \$2.00

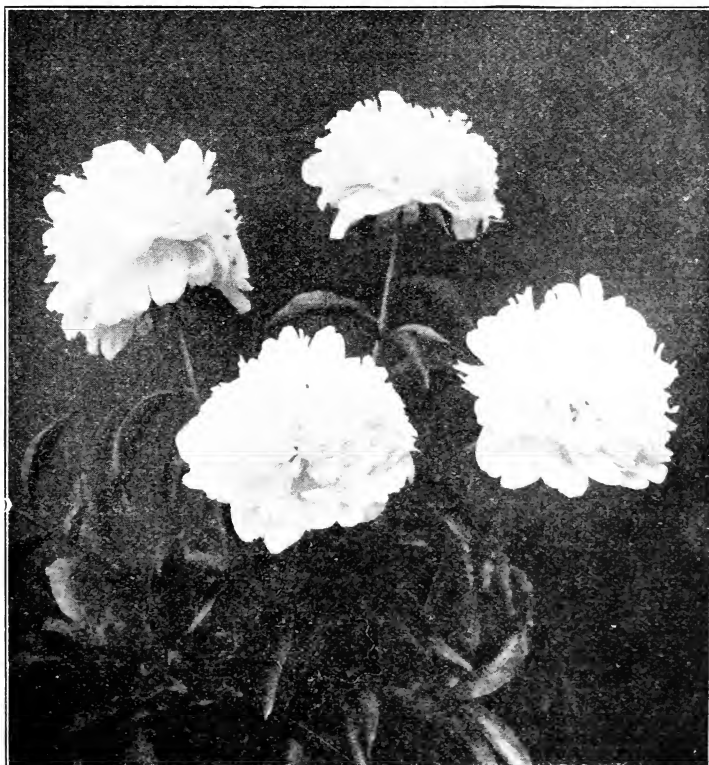

HIBISCUS (Mallow)—A woody plant, rather large that grows best in moist places. Desirable border plant with large, showy flowers of delicate coloring of crimson, pink and white. Each 25c; Per 10, \$2.00.

PEONIES*—The Peony is a perennial that commends itself to you for many reasons. We offer Peonies in white, red and pink. The size of both plant and flower makes it a valuable selection for the garden. Peonies do best in rich, rather moist, loamy soil and if plants are protected from the hot afternoon sun they will give excellent results. They should have a liberal supply of water at all times and especially when in bloom in May and June. Fertilize well with leaf mold or cow manure. Keep the ground well cultivated and you should get good results.

State color wanted—Each 40c; Per 10, \$3.50

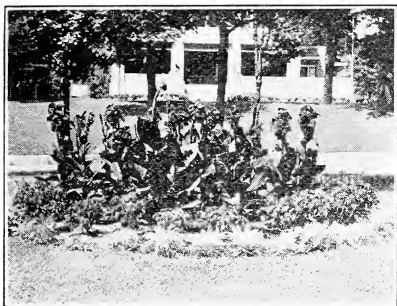

Hibiscus

Peonies

Bulbs

Cannas

CANNAS—No other bedding plant will give any more satisfaction and good results in all sections of the country. We have the following varieties.

	Each	Per 10
American Beauty.....	\$0.25	\$2.00
Black Prince.....	.25	2.00
Colossal.....	.25	2.00

(All of the above dormant bulbs.)

DAHLIAS—Large gracefully formed flowers with broad petals; large opened faced various colored flowers. We do not offer named varieties, but we assure you that in our collection you will find some of the choicest specimens.

Each, 25c; Per 10, \$2.00

GLADIOLUS—Beautiful as an orchid; old favorite for the flower garden. One of the finest of bulbs for spring planting. For best results they should have a sunny position and light, sandy soil. Flowers are of almost every desirable color. Plant bulbs in April or May for early, and late June for Fall blooming. We list the following best varieties; America, Mrs. Francis King, Cracker Jack and Independence.

Name variety—Each 5c; Per 10, 35c; 100, \$3.00

HYACINTH—(Candicans)—A very stately bulbous plant with stately Yucca-like leaves. Bell shaped flowers in July and August. While doing your Fall planting you should not leave out the Hyacinth.

Each, 25c; Per 10, \$2.00

HYMENOCALLIS OCCIDENTALIS (White Spired Lily).

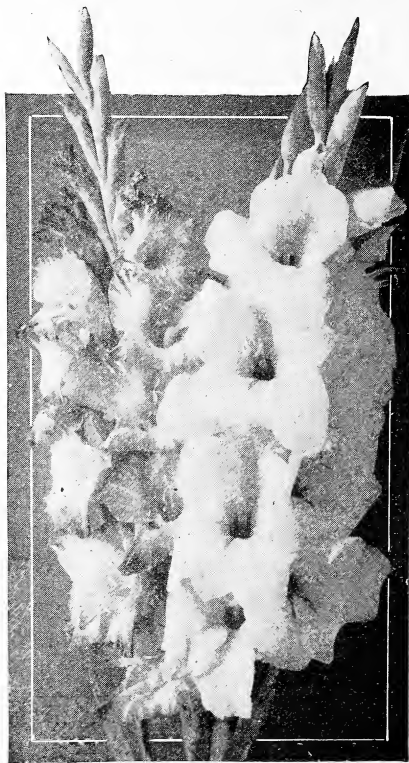

Two year bulbs—Each, 25c; Per 10, \$2.00

IRIS (Germanica)—Charles Dickens. Queen of May and Sans Souci are the varieties we list.

Above varieties—Each, 20c; Per 10, \$1.50

Dahlias

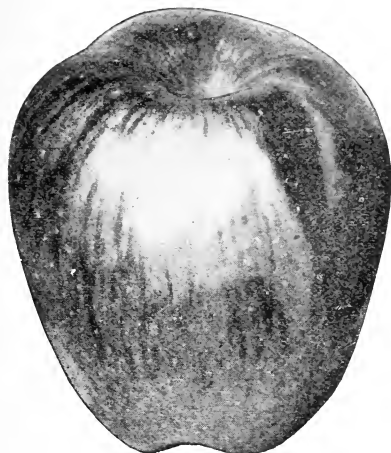

Gladiolus

Fruit Trees

We do not grow fruit trees ourselves but we have many customers who want them and they find it more convenient to include with their orders for shrubs etc., their orders for fruit trees also, and for this reason we handle many of the best varieties of fruit trees—buying them from the most reliable growers in this section, and your orders will have our very best attention and will try at all times to fill your orders with fresh dug trees true to name.

VARIETIES:—

BEN DAVIS—A large, handsome, striped winter apple. Excellent quality. Tree hardy and productive.

BLACK TWIG—A rather large sub-acid, very productive apple. Early winter. Resembles the winesap.

DELICIOUS—Early winter variety. One of the most popular apples. Large red of uniform size.

EARLY HARVEST—Pale yellow early apple. Sub-acid; regular bearer; Good general purpose apple that should be in every orchard.

GRIMES GOLDEN—A very productive yellow apple. A choice apple for home use or for market. Has a delicious flavor.

RED JUNE—Medium to large size. One of the best known early apples. Dark red. Flesh tender and mild. Sub-acid. A splendid apple.

STAXMAN WINESAP—Larger than the old winesap. Dark rich red. Indistinctly striped. Early winter.

ROME BEAUTY—Large round apple. Bright red. Juicy. Very fine and an early bearer.

YELLOW TRANSPARENT—An early apple of great value. Pale yellow. Trees vigorous and upright. Does well in nearly every section. One of the earliest apples to ripen.

PEACHES

	Each	Per 10	Per 100
12 to 18 inches	\$0.20	\$1.75	
2 to 3 feet	.25	2.15	
3 to 4 feet	.35	3.00	
4 to 5 feet	.45	4.00	

VARIETIES:—

BELL OF GEORGIA—Very large. Flesh white and firm and of a delicious flavor. Skin white with decided blush. Regular bearer.

CARMAN—Ripens about first of July. A large roundish peach with pale yellow skin. Flesh white and of a very sweet flavor. Extra hardy and one of the best.

CRAWFORDS EARLY—Large, oblong peach with yellowish skin with red cheek. Yellow flesh. A large sweet peach.

EARLY ELBERTA—Like the Elberta it is a large golden yellow with blush. Fine grained and very sweet. Freestone. Ripens little earlier than Elberta.

ELBERTA—One of the most widely known peaches. Does well in all sections. Large yellow shaded with deep red. Flesh firm and juicy. Delicious flavor. Splendid for home and market purposes.

HILEY—Large cream white with red cheek. Flesh white and firm. A good shipper. Ripens about first of July.

INDIAN BLOOD—Medium to large size. Red throughout. Very juicy and a fine flavor.

J. H. HALE—The much advertised peach of J. H. Hale of Georgia. "The peach King." Deep golden yellow almost covered with red. The flesh is fine grained and deep yellow. Best quality.

RED BIRD—A cream white peach covered in red. A semi-cling stone. One of the best for commercial shipping. Early ripener.

J. H. Hale

PEARS

VARIETIES:—

RED

AGAWAM—Large berries. Medium bunches. Soft sweet pulp and thick skin. Early ripener and strong vine.

BRIGHTON—Medium to large berries and large, compact shouldered bunch. Very juicy and sweet. Delicious for eating from hand.

DELAWARE—A popular grape. Should be planted in a rich soil. Berries and bunches small. Known for its delicious flavor.

BLACK

CONCORD—The best known of any grape and its quality flavor, productiveness and large berries makes it deserving of its popularity.

MOORE'S EARLY—Large berries and medium bunches. Ripens early. Good for marketing. Vines vigorous.

WORDEN—Ripens few days earlier than the Concord. Large berries and bunches. Color black. Sweet flavor.

WHITE

DIAMOND—Medium size berries and bunches. Flesh juicy, sweet and good. Ripens very early.

MARTHA—A standard white grape of merit. Medium size bunches. An early ripener.

BLACKBERRIES

	Each	Per 10	Per 100
Sucker plants	\$0.10	\$0.80	\$6.00

VARIETIES:—

EARLY HARVEST—Very early and productive. The leading variety. Hangs well on its cane.

ELDORADO—Berries very large, juicy and sweet. Ripens late. Small seed and core. Hardy and productive.

SNYDER—Hardy—Medium size and ripens early. Productive.

RASPBERRIES

Varieties	Each	Per 10	Per 100
	\$0.10	\$0.80	\$ 6.00

COLCMBIAN—Large dark red berries. Hardy, strong and productive plants.

CUMBERLAND—Large glossy black oval shaped berries. Ripens in mid-season. Hardy and productive.

GREGG—The largest and best black raspberry. Dark purple berry and of good quality. An enormous bearer.

KANSAS—Handsome appearance. Early, large and productive. Great market variety. One of the best.

ST. REGIS EVERBEARING—In the Spring is an excellent producer of good quality red berries. Produces some berries throughout the summer.
